RUNGTA STEEL[®] STIRRUPS

THE REVOLUTIONARY CHOICE FOR UNSHAKEABLE FOUNDATIONS

When it comes to construction, the strength and integrity of the structure is paramount. That's why Rungta Steel is at the forefront, producing high-quality Stirrups that redefine durability & reliability.

Employing state-of-the-art facilities and cutting-edge technology, Rungta Steel has perfected the art of crafting Stirrups that exceed rigorous quality standards and effectively reinforce beams and pillars in construction projects.

RUNGTA STEEL STIRRUPS
are available in different shapes
and sizes to match the designs
of pillars, beams & columns.

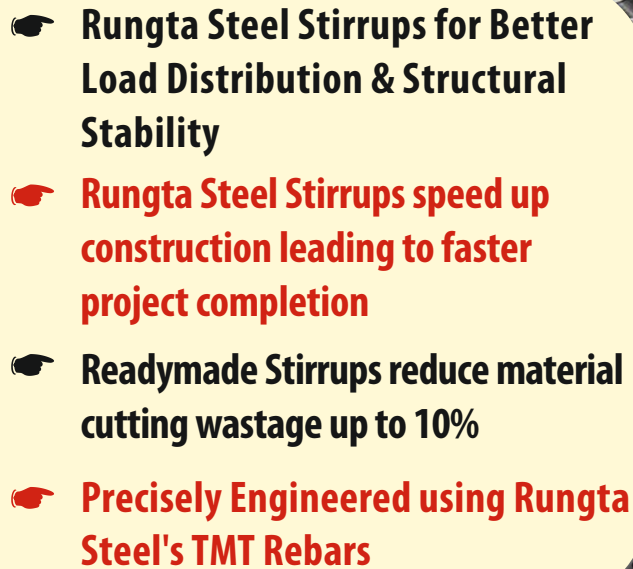

RUNGTA STEEL STIRRUPS SIZES
6MM & 8MM

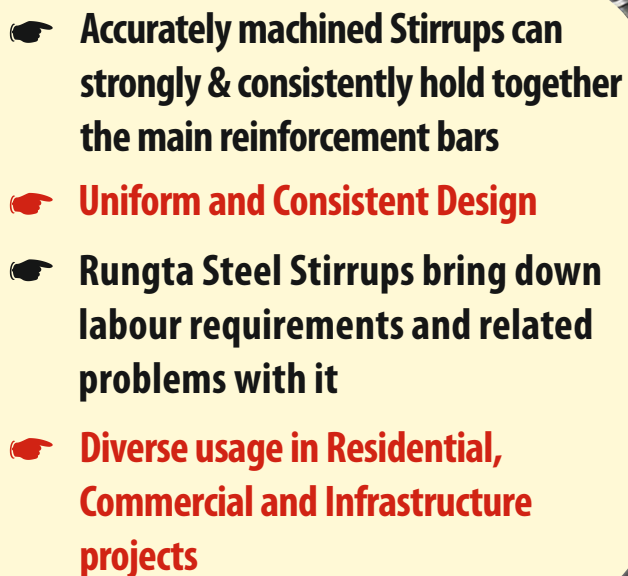

EXPERIENCE THE FUTURE OF CONSTRUCTION WITH
RUNGTA STEEL STIRRUPS!

RUNGTA STEEL[®] STIRRUPS

- 
- **Rungta Steel Stirrups for Better Load Distribution & Structural Stability**
 - **Rungta Steel Stirrups speed up construction leading to faster project completion**
 - **Readymade Stirrups reduce material cutting wastage up to 10%**
 - **Precisely Engineered using Rungta Steel's TMT Rebars**

- 
- **Accurately machined Stirrups can strongly & consistently hold together the main reinforcement bars**
 - **Uniform and Consistent Design**
 - **Rungta Steel Stirrups bring down labour requirements and related problems with it**
 - **Diverse usage in Residential, Commercial and Infrastructure projects**
